

ELABORATE CEREMONIES PLANNED FOR DEDICATION OF PAHOKEE STATE FARMERS MARKET FEBRUARY 27

Recent Operations

By Paul Rardin

"The toughest test of United States production ability that this country has ever seen is in the offing," said Forrest Banning, Manager of the southeastern division of the War Production Board, Florida, at a meeting of the Paahokee Rotarians yesterday. Mr. Banning, a former employee of the Florida Power and Light company, was drafted by the federal officials and has set up office in the County building in Miami where he serves the territory from Miami north as far as Coconuts. It is his job to assist small business in securing government contracts and enlighten the public on the war effort. That he is getting off to a good start was evidenced in the report that he unfolded before the Rotarians in an excellent 25-minute speech at the regular meeting yesterday.

The annual Parent and Son banquet of the Future Farmers of America will be held in the school cafeteria on Friday night, February 27. Nathan Mayo, state secretary of agriculture, who will be in Paahokee for the dedication of the state market, will be an honored guest on that night. The state's top young agriculturists in Florida is none other than a Paahokee boy—Claude Jones.

The editorship of "The Daily Worker" has changed again, last week. Buster Willis, who has done a bang-up job for several months, has tendered his resignation and will soon become one of Uncle Sam's fighting men.

Harper Kendrick, vocational agriculture teacher, is off for the army. He and his wife and baby will leave Paahokee Saturday for Camp McDonald, Alas. Harper is a reserve officer.

Canal Point school is minus one of its efficient teachers this week—Fred Bansell—who has been called to the army.

Dow Gelzer, Canal Point grocer and member of the Paahokee Rotary Club, has been given a red伶 stamp given away at the Rotary club yesterday. Lennie Stuckey and Sam Chastain were recent winners.

Curtis Chase, an employee of the Florida Power and Light company, will leave Feb. 18 for Aberdeen, Md., where he will take up his duties as a second lieutenant in the United States army.

W. P. Lovell of Canal Point, W. K. Myers of Canal Point and W. E. Culberson of Paahokee are among the recent residents of this area to be called into the U. S. service.

If you're between 20 and 45 and haven't already registered for military service—get your turn today. You can be in the Canal Point register. Dennis Caulfield will do the work in Paahokee at the white school and P. P. DeMoya will have charge at the colored school. Will Jernigan will have charge of the registration at Aztec.

Carl Davia, Raymond Cagni, Van Jackson, York, Ollie Cowart and Louie Gold are the young men in the area to be called for examination before Uncle Sam's medical board at Miami.

City Hall In Paahokee Completed; To Be Used By Council Tonight

Handsome Structure Provides Modern Quarters For Officials

Paahokee city council went bright tonight for the first time in the recently completed \$34,000.00 city hall, it was announced yesterday by Clerk City W. P. Walker. Final inspection was made of the new structure on the site during the past couple of days moving all office equipment from the old city hall to the new building.

The new structure is located behind the present city hall which will be moved away by the city council of South Bay. In a deal closed last week the South Bay commissioners agreed to move all offices from the Paahokee city council.

The new building, erected by Don Hillier and Sons, Paahokee contractors, is one of the most beautiful buildings in the Lake Region and will be a credit to the town and the city's business.

AMERICAN COMPLACENCY LOOKS DANGEROUS TO MOORE HAVEN EDITOR

Our favorite country editor lives on the other side of Lake Okeechobee. He is none other than Carr Settle, editor of the Glades County Democrat, published in Moore Haven. For years now we've been reading editorial columns written like others in this newspaper game he has his off weeks, but, as a general rule when the Moore Haven paper reaches our exchange desk we reach for it with complete assurance that we'll find something interesting, educational and worthwhile in the editorial columns.

The past week was no different from many weeks that we've unwrapped the Democrat—we found an interesting editorial—penned by the chap who introduced this writer to the Lake Okeechobee Region many years ago. Knowing that readers of this newspaper will enjoy Editor Settle's editorial of last week we are reprinting it in full. It follows:

"Maybe I'm wrong but I'm yet to be convinced that there is no American people realize that there is a war going on and there is a complacency in our attitude which still looks dangerous to me."

"Most of us continue in our usual way of living and complain if something happens to upset the usual schedule, not realizing that there is a chance that we could lose this war unless there is a determined effort put forth and if we do it will be the most vulnerable as we have ever been."

"So far the war has not bothered us greatly. To the most of us the war means only an increase in the cost of living, minor restrictions on the use of certain commodities and a topic of conversation. Before it's over it will mean far more. Every family will have someone near and dear to them in the service with a constant worry as to where they are sent to and every family will be compelled to make sacrifices of above anything known to the American people in recent years; women will be compelled to learn to do more and more of men's work and take their places as the men go to various parts of the world to fight the enemy; men left at home will face a grave responsibility as those men who are on the battle fronts."

"Already, in many local homes, the war is a serious thing, for many of the boys in our own town and county are sailing worked were the same idea might be worked here in the Lake Okeechobee Region. Grocerymen could very easily keep a record of sugar sold and to whom sold, then at the end of a week do a little checking with other grocerymen. In this manner it would be an easy matter to find out who those are that go from store to store and buy sugar for hoarding purposes.

If so many are there are always a few Americans who are not in the luxury—no matter how much income to the country in general. These Americans will be asked to pay taxes—support the schools and churches, etc., etc., but the very next moment will brag about having accumulated 50 or 100 pounds of sugar since the rationing idea came into effect. This particular kind of American is not the kind it will take to win ultimate victory from the aggressor powers.

"In addition, many local homes, the war is a serious thing, for many of the boys in our own town and county are sailing

the seas or in training to fight with Uncle Sam's land and air forces. Possibly some of them are already in action and any day we may be saddened to learn that some of these boys have paid the supreme price for democracy. Shouldn't it make us realize that the part we're playing is mighty small? Shouldn't it make us more determined that what we do at home with our savings time and money the right thing to do? And don't forget that it can happen here—that the United States, next to Japan is the most vulnerable nation in the world to air attack.

"Several months ago, long before war was anything but a vague possibility, the county defense council was formed. Chairman of various committees were named in accordance with the needs of the community and most of us accepted these assignments in about the same manner we would accept the third vice-presidency of the society to relieve crippled cats. But it wasn't so easy and it wasn't long before we discovered that we had accepted a real working job which we were being held to. My committee didn't sound very important in a small county so I did my best to keep it a secret. It was lucky, when I received an official War Department letter not requesting that I do certain things but ordering them done. The work is important and all of us must realize that more and more of our time is going to be required for this work."

GROCERYMEN SHOULD KEEP A LIST OF THOSE WHO BUY SUGAR

Over on the west coast of Florida at Punta Gorda the grocerymen have hit upon a good idea to combat sugar hoarding. Those merchants plan to publish the names of those who go from store to store buying up sugar and hoarding it. An accurate list is being kept of all sugar sold and at the end of a certain period the names will be published if it is found that customers are going from store to store, buying sugar and hoarding it.

Those who report the same idea might be working here in the Lake Okeechobee Region. Grocerymen could very easily keep a record of sugar sold and to whom sold, then at the end of a week do a little checking with other grocerymen. In this manner it would be an easy matter to find out who those are that go from store to store and buy sugar for hoarding purposes.

If so many are there are always a few Americans who are not in the luxury—no matter how much income to the country in general. These Americans will be asked to pay taxes—support the schools and churches, etc., etc., but the very next moment will brag about having accumulated 50 or 100 pounds of sugar since the rationing idea came into effect. This particular kind of American is not the kind it will take to win ultimate victory from the aggressor powers.

"In addition, many local homes, the war is a serious thing, for many of the boys in our own town and county are sailing

is going to be involved in the national circles. The attorney needs to be a candidate for Congress and those fellows who are planning to seek their votes in any election. The public should know all about them and that is the idea of this column."

One day this week I was on the south side of the Lake on bus duty and met up with Congress man Pat Cannon. He said he was making a effort to contact me when he first got the lay of the land in regard to his forthcoming race for re-election to congress. Congressman Pat said he wouldn't have much time for campaigning because he was another who has been requested to Washington—but he wants to find out just how tough his opposition is going to be.

Congressman Cannon at this moment (several weeks before qualifications close) has a potent Hill opponent in none other than Guy Stoval. Guy is known as well as South Florida as any man in there. May 5th may I say, we believe Guy could call more followers than any name than any other editor in South Florida."

James F. Boyd, Jr., member of the Jacksonville City Council, announced last week that a candidate for Congress from the 2nd District, a post which Lex Green is vacating to run for Congress from the state at large.

ELABORATE—
(Continued from Page 1)
Schrader, regional director of the CIO, said his friend had first met the lay of the land in regard to his forthcoming race for re-election to congress. Congressman Pat said he wouldn't have much time for campaigning because he was another who has been requested to Washington—but he wants to find out just how tough his opposition is going to be.

Congressman Cannon at this moment (several weeks before qualifications close) has a potent Hill opponent in none other than Guy Stoval. Guy is known as well as South Florida as any man in there. May 5th may I say, we believe Guy could call more followers than any name than any other editor in South Florida."

James F. Boyd, Jr., member of

the Jacksonville City Council, announced last week that a candidate for Congress from the 2nd District, a post which Lex Green is vacating to run for Congress from the state at large.

Another room on the second floor is that provided for the volunteer firemen. It is modern in all respects and is used by the firemen men. This dormitory with its regular occupants will meet the requirements of the underwriters in that firemen shall be on the job 24 hours daily.

To the rear of the city hall is the modern and up-to-date jail, which officials say is the latest thing in penal equipment. In the cell block there are three cells on each side of a central corridor space for four occupants. There are two shower baths and all the comforts of home. A special cell for white women and another cell for Negro women have also been provided and equipped.

The handsome new structure is located on a plot of ground 200x275 feet which when built up will be one of the attractive spots of the Everglades.

A crew of Florida East Coast Railway workers are busy this week building the spur track from the East Coast into the market area. The spur will extend outside the market shed with loading space for ten cars. The railroad spur will reach north past the market to the plant now under construction on the site. The Everglades Growers Cooperative.

"We are indeed happy to announce the dedication date of the new state market," Mr. Dulany said. "We want to thank the members of the Local Board for their help on this day and see them hand just what we have constructed for the benefit of the growers in this section."

"Drink a Florida Orange," New slogan
LAKELAND, Feb. 12 (PNS)—Northerners are going to be educated in the "cracker" style of eating oranges, according to Emmett J. Dulany, Jr., director of the Lake Region at Eustis.

A northern friend of the editor's father paid a visit to Florida. Upon being asked about the "cracker" method of eating citrus he replied: "My, we fine down here a Florida orange."

The catchword appealed to the Florida Citrus Commission, which decided to new slogan, "drink the right fruit and it will now put the slogan "Drink a Florida Orange" in its advertising."

Remember Pearl Harbor! Remember it every day! Buy U.S. Defense Savings Bonds and Stamps.

THE EVERGLADES NEWS, CANAL POINT, FLORIDA

STATE BRIEFS

The G. A. Sauer Arms Company of Eustis has received a small contract to manufacture munitions for the defense department. The nature and amount cannot be disclosed as it is a military secret. The contract extends over a 10-months period.

Out of state junks by state department heads and institution supervisors are another war casualty. The State Cabinet last week made this ruling as a matter of war time economy.

April will be convention time at West Palm Beach, with the Florida State Horticultural Society convention scheduled for April 19-20, and the Florida State Medical Association meeting April 22-23.

\$1200 additional prize money has been offered by Lee Salisbury, president of the Kissimmee Chamber of Commerce, to stimulate interest in the Kissimmee Fair at Kissimmee on March 1. The best cowboy from all parts of the country to the show in Kissimmee Feb. 19, 22.

Of the hundreds of exhibits in the 23 buildings at the Florida Fair, Tampa, that of the Army draws the biggest crowds. Bowls seem to have a special fascination, especially the big 2,000 pound ones. The bowls are "dead" but they show what the men in the Army are particularly important months from the standpoint of home ac-

"Many of us," the well-known educator continues, "are busy as bees building air raid shelters in the basement, lapping shingles to reduce the danger of flying glass, sealing windows with sand bags and buckets of sand, all in anticipation of an air raid without once giving thought to the fact that junior's innocent football or sister's old rag laying on the darkened floor may be the greatest source of danger for us."

"I do not mean to say that we should not take all the precautions mentioned to protect ourselves if air raids should occur. What I am trying to point out is that most of our injuries are caused by the obvious hazards. Even in peace time we should be more careful about what we do. But in time of war we must be even more careful, else the constant loss of men will bring disaster on the military front."

In substantiation of his appeal for increased vigilance around the home, Mr. Beale quotes the surprising statistics that home accidents are second only to motor vehicle accidents in killing our citizens and that in the number of persons killed in automobile accidents, while 32,000 died from falls, burns, asphyxia, drowning, etc., only 4,700 were non-fatality accidents, non-fatal injuries 1,800 persons, but home hazards built up the staggering total of 4,800,000.

We do not have the official figures for 1941, but in the year Mr. Beale quoted, "But," according to his estimates, usually reasonably accurate, indicate that last year home accidents killed 32,000 persons and injured approximately 4,700,000. The true figure shows a steady improvement over 1940, but it must be admitted to the most ingrained optimism that the loss of most skilled hands strikes a serious blow at maximum production of war materials. Most important, therefore, it provides us to guard against accidents in the home sector. An amazingly small amount of prevention will produce a large amount of safety.

"With account for the largest number of home accidents. Guards against falling by keeping stairs and floors clear of articles that may cause them to hazard. Remove sharp edges from furniture, etc., etc. Prevent falls from slippery surfaces by sawing fruit jar rings to their undersides. Keep walks, steps, and porches free of wet leaves, snow, and ice. Avoid standing on mats and rug edges, tables, chairs, piles of books or other objects, especially when hanging pictures or washing windows."

"This is the season to be particularly alert to prevent fires. Keep the premises free of inflammable rubbish. Do not use kerosene or gasoline to start or dry clothes, or for cleaning purposes. Never completely close chimney flues. Do not smoke while in bed, and never leave burning matches unattended. Replace worn or defective electric wiring. Keep all poisons, including creosol, insecticides, rat poisons and disinfectants locked up when not actually being used."

• • •
The value of telephone service increases as more telephone subscribers are added. During the past two years alone, a net gain of almost 300,000 telephone phones was made in the area served by Southern Bell. To make possible this unprecedented increase in telephone service has required an investment of nearly one hundred million dollars and a pay increase of more than \$6,000 now employs, making a total of 22,000 men and women now employed by Southern Bell. Today, as never before in history, the telephone is indispensable to business and industry, a source of ever present comfort, convenience and security to the home, and vital to our national welfare in war and peace. The telephone has become a part of our modern way of life—indispensable—invaluable.

GLADES GLANCES

The February issue of the Canal Point School Magazine is off the press and has been distributed to the subscribers. "The Glades" is also on the front page, drawing by Dickie Atkins that would do credit to many big time artists in America. The drawing depicts one of America's Minute Men in the splendid plains of war. Throughout the magazine are many articles written by the youngsters in the grades. All in all the magazine is interesting and goes to show what the children are doing in their school work.

two blood transfusions during the past week since being given just few days. Mr. Walker's many friends will be glad to know that he is showing improvement.

For the information of those interested in the Canal Point Red Cross sewing room, the new building is now open each Thursday from 10 a.m. until 5 p.m. Those interested may do their Red Cross sewing there or may secure their material and lay it on their laps to do the work. Mrs. F. M. Wilson is in charge of the work.

A. O. Walker, mayor of the recently incorporated Town of South Bay, is in the Everglades Memorial Hospital in Palmetto where he has been seriously ill for several weeks. His condition is somewhat

Citizens and taxpayers of Palmetto were invited by members of the city council to visit the new \$24,000 city hall and see first hand what a handsome structure it really is. One must see it and inspect its interior to fully appreciate the modern manner in which it has been constructed.

The many friends of Councilman O. B. McClure were pleased to see him upon his return last week from Venice where he had been receiving medical treatment. Mr. McClure, since his recent treatment, shows a great deal of improvement and he is again able to pursue his agricultural studies and his place on the Palmetto town council.

Oscar Chastain, 32, son of Mr. and Mrs. T. M. Chastain of Canal Point, Fla., has enrolled in the Aviation Cadet Training School at Miami. He is a midshipman for a course fitting for a part in the nation's war effort in the aircraft industry. Mr. Chastain, who would like eventually to become an aeronautical engineer, is taking the course in the first year course. Mr. Chastain and his recent bride, the former Miss Mary Bordeaux, plan to move to Miami this week end where they will have a home during his training.

Bill Reddick, Florida East Coast agent at Canal Point for many years, is in the FEC hospital at Fort Lauderdale. He is suffering from a heart ailment. He had been ill for several weeks before entering the hospital. His many friends in the Lake Region will wish for him a speedy recovery.

The body of A. D. Rusher, 44, was sent to Henderlite Funeral Home, Rusher was drowned in Lake Oklawaha of Eaton Point Saturday night when the boat in which he was fishing capsized. He is survived by a wife and a brother in Hendersville.

Telephone subscribers in the Lake Region will favorably remember D. P. Farmer, formerly of Belle Glade, who is now in the Good Samaritan hospital where he underwent an operation and is recovering rapidly. During the long years Mr. Farmer lived in Belle Glade he was well known and liked. He is accompanied by a host of friends who will wish him a speedy recovery.

Nathan McRae, state commissioner of agriculture, will be one of the speakers at the dedication of the Palmetto State Farmers Market on Feb. 27.

Make defense against heat and friction your first thought when you buy motor oil. Buy Sinclair Opaline. Opaline contains no "5th Columnist" wax and petroleum jelly—non-lubricating substances that thin out in heat and cut down on oil's lubricating ability. Wax and petroleum jelly are removed from Opaline by an extra refining process. Play safe. Use Sinclair Opaline Motor Oil. It lasts so long it saves you money.

HOLLYWOODS

newest leading man is Victor Mature, who has his best role to date in the new, "I Wake Up Screaming," showing, Sun Mon. Feb. 15-16 at the Prince Theatre and Tues., Feb. 17 at the Everglades.

In one of the most unusual romances in screen history, Robert Montgomery and Evelyn Keyes appear in "Here Comes Mr. Jordan," showing Sun-Mon., Feb. 15-16 at the Everglades Theatre and Tues., Feb. 17 at the Prince.

"Ripper" Marie Rosenberg, the famous Hollywood siren, is back in sight in his latest comedy, "Harvard Here I Come," playing Wed. Thurs., Feb. 19 at the Everglades Theatre and Friday, Feb. 20 at the Prince Theatre.

Citizens of the Glades are urged to buy as many bonds as possible. Our government needs the money to build armaments to fight the axis powers. Bonds are on sale at the post offices and at the banks. We are fighting enemies who will stop at nothing. With our homes, our very lives at stake, shall we stop short of giving our dollars for defense? Buy defense bonds and stamps every day, every week. Buy as if your life depended upon it. IT DOES.

IN THE CIRCUIT COURT OF THE FIFTH JUDICIAL CIRCUIT, PALM BEACH COUNTY, FLORIDA,
AT LAW,
RE: ADOPTION OF
CHILDREN, A minor.
NOTICE

Notice is hereby given that Fred H. Ford and Edith H. Ford, husband and wife, of 1000 N.W. 10th Street, Ft. Lauderdale, Florida, intend to file their petition and application for adoption of a child, a minor, at the 24th day of February, A. D. 1942, at the Circuit Court of the Fifth Judicial Circuit, Palm Beach County, Florida, or wherever the Judge of said Court may be then sitting, for the adoption of an infant for an order authorizing the adoption of the minor, a child, as a member of the family of Fred and Edith Ford, as soon as thereafter as they can or may be heard.

Dated at West Palm Beach, Florida, this the 22nd day of December, A. D. 1941.

Pahokee's New \$34,000 City Hall Is Open... Final Inspection Made By City Councilmen On Monday Of This Week

THE NEW CITY HALL IS...

Another Modern Structure

IN WHICH

We Did The Electrical Work

We're happy to have had a part in this work

BURNS ELECTRIC

— S. G. BURNS —

Phone 438

Pahokee, Fla.

This Handsome New Structure Contains Modern Offices

The ground floor contains a spacious office for use by the City Clerk and his assistant. New office furniture has been installed.

A splendidly equipped office has been provided for the Chief of Police and his patrolmen.

Another office on the ground floor is provided for the use of the Mayor and the City Clerk.

A three-room apartment is also available for use by the Chief of the Fire Department. However, it is thought that these rooms will be used for welfare and defense work for the duration.

On the second floor is located a well-lighted and large auditorium. It will seat more than 300 people and provides a long-felt need in Pahokee for a public gathering place.

Also on the second floor is a dormitory for volunteer firemen. It will accommodate six men.

The jail, erected at the rear of the new city hall, is one of the most modern to be found in Florida. Equipped with shower baths and all the comforts of home it is awaiting its first patron.

All in all the new city hall is one of the finest structures to be found on the shores of Lake Okeechobee. City Councilmen are anxious that citizens and taxpayers visit the building and see for themselves just what a handsome structure it really is.

OF OUR ACCOMPLISHMENT IN THE COMPLETION OF THE

New \$34,000 City Hall For The Town Of Pahokee

Those of us in the Hillier Organization have exerted every effort to make this new structure the most beautiful building in Pahokee. We believe the finished building compensates for our effort.

Naturally, We're Happy To Have Had The Opportunity Of Serving The Citizens Of Pahokee

Don Hillier & Son Contractors

The New Pahokee City Hall Provides Better Facilities For Carrying On The City's Business

It Has Been A Pleasure
To Participate In This Program

We, in this organization, congratulate the contractor, Mr. Hillier and the members of the Pahokee City Council upon their accomplishments. It is a job well done and we are proud to have supplied all

Bonded Roofing.
